## WELCOME

Greetings eBay Selling Community.

We are excited to bring you new enhancements to the Hot Products listing. In addition to presenting you with the Hot Products information in a convenient, easy-to-use PDF format, new enhanced reporting is now at your fingertips.

For those new to this report, here is a more detailed description of what qualifies as “Hot”: Within each category, we look at both recent bidding activity and new listings activity. “Hot” products are those where recent bidding growth has significantly outpaced new listings growth **and** where the bid-to-item ratios are higher than other products in the same parent category.

In addition to Level 2 and Level 3 Category listings, Level 4 Category reporting along with additional degrees of “Hotness” is defined accordingly:

### Definition of a “Hot” Level 4 category

1. Month-over-Month bid growth is at least 1%.
2. Month-over-Month bid growth is at least 1.5 times greater than month-over-month listings growth.
3. Bids-per-item is greater than the average for the relevant level 3 category. Note: this is per item, not per listing. For example, the number of bids-per-item for *work boots* (L4) in a given month may be 4, while the average bids-per-item for all L4s in *boots* (L3) may be 3. Therefore, *work boots* would pass this condition for “hotness”.
4. Level 4 category must receive at least 100 bids per month.

### Definition of degrees of “Hotness”

“Super Hot” – is defined as at least a 35 percentage point spread between bid growth rate and listing growth rate. For instance, month-over-month bid growth for the L4 Category may be 50%, while month-over-month listing growth for the L4 Category may be 10%. Because the percentage point spread is greater than 35%, this category is deemed as Super Hot.

“Very Hot” - is defined as a percentage point spread between 15% and 35%. For instance, month-over-month bid growth for the L4 Category may be 10%, while listing growth may be -10%. Thus this category is deemed as Very Hot.

“Hot” - remaining hot L4s with spreads less than 15%.

Hot Products offer a great opportunity to list and sell more to grow your business on eBay. Presented below are this month’s categories that are experiencing more demand than supply. Best of luck, and happy selling!

The Merchandising Team
