The topic?

"How you can make your living online!"

What could be better than waking up in the morning, having a leisurely breakfast, and doing whatever you want the whole day and STILL make more money than you ever would in a 9-to-5 job??

That's what it's like when you make your living on the Internet. That's what my day is like... doing what I love and not much I don't like doing.

Don't envy me, join me!

Ok, ready for "Part 1" of "How you can make your living online"?

Let's get started... right now!

----- **PART 1** -----

**"I Can't Do What You Do Because \_\_\_\_\_"**

It's proven: When you say you "can't" it becomes truth!

You say, "Hey, Dave makes his living online but he has some special talent or he had connections or he's highly motivated. I'm not highly motivated... I'm just trying to get by. I have no special talent and zero connections. I 'can't' do what he does."

As soon as you say "I can't do it"... guess what? That's right, "You can't!"

I am not much for 'motivational' stuff. I don't listen to motivational tapes or use 'subliminal' tapes and cd's to get me in a 'positive' frame of mind. In fact, I hate that stuff.

There's only one thing that motivates me: Helping other people get what they want and making money doing it.

One thing about motivational stuff: It gets you excited for a short period of time then it wears off. And then what are you stuck with? Nothing, an 'emptiness' inside.

Kind of like a 'sugar' high... it lasts only a few minutes then you're 'down'.

Forget motivational stuff for the most part.

In 1989 I saw Zig Ziglar on tape as he talked to a group of salespeople. In it he said something that has stuck with me for many years. He said "If you can help enough other people get what they want, then you can get what you want".

I think I first heard that in 1989. It did not make me successful. I knew what he was saying was right, but it didn't really help me in a practical way.

It took another 12 years before I finally became successful in my own business.

Why? Why did it take so long?

It was my 'mindset'... it was all wrong....
